

SING THE SONG

Search for the light in the dark
in the midst of the storm
Reach out for You
when I'm, feeling all alone

Weary and lost
in the darkest of night
When I'm not found
You, walk the extra mile

You are my hideout,
a safe place to be
Open my eyes,
and You, let me see
What You done for me

**Sing the song
On and on
Sing the song
One more time
Sing it loud... and
Let the song be heard
You are the One**

Open my eyes
let me see,
what You called me to be
Guiding my steps

on the road,
You've planned for me
You lift me up
put my feet on the ground
When I loose tracks
You stretch out
your arms around
You give me shelter
You give me hope
Embracing Your love
my heart, overflow
You are the One

**Sing the song
On and on
Sing the song
One more time
Sing it loud... and
Let the song be heard**

**Sing the song
On and on
Sing the song
One more time
Sing it loud... and
Let the song be heard
You are the One**
