

## **I WANT IT ALL**

I feel the hunger  
Down in my soul  
A hole deep inside me  
My soul thirsts for You

I search for the promise  
I search for the truth  
I search for the treasure  
In the book full of hope

**I want it all, like never before  
I want it all, my heart overflows**

A heart full of passion  
A world full of pain  
A cross for salvation  
You gave yourself away

You gave me the promise  
You gave me the truth  
You gave me the treasure  
In the book full of hope

**I want it all, Your love hope and faith  
I want it all, You gave It all away**
