

GLORIOUS LIFE

When You find someone
You will hold on
You will never let them down

When You love someone
Let the love shine
Let the love be all around

**It's a glorious life
Lift my eyes to the sky
Feel the love from above
Feel the love
It's a glorious life**

You will guard my soul
Never leave me
Never leave me all alone
You have paid the price
You have saved me
You will never let me down

**It's a glorious life
Lift my eyes to the sky
Feel the love from above
Feel the love
It's a glorious life**

I will find my way
Walking by your side
When You take my hand
You're my guiding light

When I look at the sky
I will see You
I will see Your loving eyes
