

## WILD THING

When I look at You now  
When You walk by my side  
See the love in Your eyes  
See the beauty inside

**You lift me up  
Move my soul  
Touch my heart  
You are my wild thing  
You make me sing**

You captured my heart  
At the very first sight  
You reached to my soul  
Like a gift from above

**You lift me up  
Move my soul  
Touch my heart  
You are my wild thing**

**You lift me up  
Move my soul  
Touch my heart  
You are my wild thing  
You make me sing**

Love all around  
Love from above  
Love all around  
Your Love

**You lift me up...**

And You love me for nothing  
My wild thing  
And You love me tonight  
You're my wild thing  
And You love me for nothing  
My wild thing  
Like a gift from above
